I will check but I don't think EDDs were requested for the NEL laboratory.

Cindy,

Can we get the bacteria electronically?

Ex. 4 - CBI spreadsheet is the status of all of the packages we have received.

Thanks,

- John

Subject: Project update

I just published scribe, but was unable to add all files posted today on the FTP. I expect to be able to finish them in the morning. There are no bacteria EDD files, but the results were posted in PDF format (possible transcription errors/more time consuming to import manually to scribe). It would be helpful if this data was available in a digital format (spreadsheet, text, etc) even if an EDD file is not available from the lab. It is your call if you feel this is worth bugging Cindy about this issue. I have also included an updated data flow status spreadsheet.

Thanks,
